

The following information was submitted on November 7, 2007 @ 3:45 pm:

Grid Square: SD9826

Date Submitted: 7/11/07

Reported Started: from 20/10/07

Report Finished: To 20/10/07

Overall Assessment: Many footpaths in this grid are very well defined and heavily used. Some are also tracks allowing vehicular access to farms etc.

A lot of litter was collected on this initial survey (6 bin liners), but the feeling was that this had accumulated over several years.

Comparison With Information In Previous Report: Not applicable

Maintenance Problems Or Difficulties To Formally Report To Calderdale MBC: One footpath goes under another through an unusual tunnel. This tunnel is in a state of collapse with stones ready to fall. This will be reported when grid ref is determined.

Other Particular Problems Or Difficulties Encountered: No other problems encountered.

Other Comments, If Any: No other comments.
