Overall Assessment: Paths generally seem in good order and are obviously being used. There were no blockages other than 2 horses that wouldn't let me go through the gate at 997 284.

Maintenance Problems Or Difficulties To Formally Report To Calderdale MBC:
The kissing gate at 997 284 needs to have the top hinge repaired properly, the gate easily lifts off the bolt which has been put in as a temporary repair. I have emailed photos of this.

Other Comments, If Any: I will check the paths at Lee Mill Bridge and Midgehole asap.
